I reviewed 10/624478 and it is definitely not class 362. With the sensor board and antenna array as per claim 1, I would try Class 345.

Good afternoon.

I believe I have a case that may belong in your art unit. The case number is 10/624478. Possible subclasses are 362/551 and 362/559. Would you mind taking a look for me to see if the case belongs in your area?

Thanks,
